

Congratulations...

Dr. Sheila Singh
Division of Neurosurgery

Join us in congratulating Dr. Sheila Singh on being named **University Scholar**. The honour recognizes mid-career faculty members who have already distinguished themselves as international scholars.

Dr. Singh is the Canada Research Chair in Human Cancer Stem Cell Biology. Her research focuses on further characterization of genetic abnormalities of brain tumor-initiating cells (BTICs), with the intent of developing future therapies that will target BTICs, and provide insight into patient prognosis.

The Department of Surgery and all of McMaster University recognize your diligence, your continued contributions, and your impact on the field of neurosurgery.

Congratulations, Dr. Singh!
